

**Company Details**

[Pensieve.id](https://www.pensieve.id) builds AI-infused software that helps organizations integrate and unleash the full power of their data to make better decisions and streamline their operations. We build software that helps with faster decision-making and ensures insights and intelligence captured are no longer lost. Our mission is to become the leading AI-enabled operational platform for organizations across Southeast Asia.

We've been growing rapidly since our inception in 2021 and have since received the angel funding round, led by Pandu Sjahrir, followed by several angel investors from Indonesia, Singapore, and Brunei Darussalam.

This year, we are also exploring the intersection of AI and web3 in the government and enterprise space!

We think of ourselves as game-changers. We approach everything with an open mind and a can-do attitude. Currently, we serve clients across Southeast Asia, with teams across Indonesia, Singapore, and India. Follow us on [LinkedIn](#) for more updates.
